AutoCAD With Serial Key [Mac/Win]

Open the program that you wish to use the Autodesk Keygen, in my case I am using the AutoCAD program. Open the "User Options" menu by pressing the "F1" key. Click on "Options" and then choose "User Options". Click on "Hardware" and then click on "Copy". Paste it into the program window. Done. Source. 1. Field of the Invention The present invention relates to an image forming apparatus and a digital copying machine, in particular, a paper-feeding device in which a size of a paper used for image formation can be changed. 2. Description of the Related Art A conventional digital copying machine includes an automatic paper-feeding device in which a size of a paper used for image formation can be changed by a user. The automatic paper-feeding device includes, for example, a paper-feeding device (hereinafter, referred to as a PFD) having a paper-feeding cassette on which a predetermined number of sheets of paper are stacked, a PFD-inserting mechanism for inserting the predetermined number of sheets of paper into the paper-feeding cassette, and a PFD-removing mechanism for taking the paper-feeding cassette out of the digital copying machine. The PFD-removing mechanism is, for example, provided with a paper-feeding cassette holder unit for holding the paper-feeding cassette, and a paper-feeding cassette-removing mechanism for removing the paper-feeding cassette held by the paper-feeding cassette holder unit from the digital copying machine. The paper-feeding cassette-removing mechanism includes a paper-feeding cassette-removing lever for driving the paper-feeding cassette holder unit to make the paper-feeding cassette detachably attachable to and detachable from the digital copying machine, and a paper-feeding cassette-removing motor for driving the paper-feeding cassette-removing lever. Thus, the digital copying machine has the paper-feeding cassette-removing mechanism for removing the paper-feeding cassette inserted into the digital copying machine from the digital copying machine, to thereby detach the paper-feeding cassette from the digital copying machine. However, the paper-feeding cassette and the paper-feeding cassette holder unit are made so as to be fixed to a cabinet of the digital copying machine, respectively. In addition, when the paper-feeding cassette-removing mechanism removes the paper-feeding cassette from the digital copying machine, the paper-feeding cassette-removing
