**AUTOCAD IS SIMPLY THE BEST** Several years ago, the author was presenting a lesson to architectural students. One of the students, a beautiful young woman, asked me why CAD programs were not yet designed to be accessible. I explained that CAD was designed for engineers, and that Autodesk had not developed an accessible version of CAD yet. She said that she thought Autodesk should do so, because many visually impaired people were good CAD users. My response to her was: "Yes, CAD is easy to use. I took some time to really enjoy the sights, sounds, and eats of Cleveland. It was a great trip. While in Cleveland, I had the opportunity to sit down with Kellie O'Brien, newly appointed Marketing Director at Pottery Barn Kids. I love talking to Kellie because she has an incredible passion for what she does, and she is very personable. We chatted about everything from her background as a marketer and retailer, to what she loves most about her new role. Kellie talked about the marketing team that she has at Pottery Barn Kids. She told me that they are a little different than the typical department with multiple departments. They are just the same size department with a specific talent. Kellie works with all of the departments to identify what it is that she wants to help create and implement. "We love our team. They're so much fun to work with.
