As of 2019, there are two editions available. AutoCAD Full Crack LT 2020/2019 is for use on personal computers (PC) running Windows or macOS operating systems. AutoCAD Cracked Accounts LT is offered free of charge for the first 30 days and is designed for use on schools, government agencies, professional engineers, professional architects and students. The premium version, AutoCAD Activation Code LT 2020, is available at US$399.00 per year. AutoCAD LT 2019 is for use on Windows and Mac operating systems and is available for purchase at $139.99. The Autodesk AutoCAD 2020 product line is an evolution of the AutoCAD application. Major new features include the following: Technical improvements: AutoCAD 2020 supports the latest version of the DWF (Dynamically Web-Enabled Format), a file format created by Autodesk, that is used to create interactive web maps and to share CAD drawings and projects in the cloud. AutoCAD LT 2020 supports the latest version of DWF that is in wide use, so its users will be able to create, edit and share web maps with ease. PDF import: AutoCAD LT 2020 provides PDF import and export capabilities. AutoCAD LT 2020 can also import two different PDF versions: a version that can be edited and a version that cannot be edited. The export option can be used to create PDFs to different file formats. Raster Image Capture: AutoCAD LT 2020 is able to read in a standard graphics file format that can contain raster images, such as JPEG, PNG and GIF. The files are read from hard drives, network drives or from a camera, scanner, or CD/DVD image. An image is read by the software, at which point it opens the file in the graphics editor. Edge Layers: The ability to apply different types of profiles to different drawing objects such as line, arc, circle, ellipse and more, or to different edges and faces is now a part of the new edge Layers feature in AutoCAD LT 2020. "Catch": A new feature in AutoCAD LT 2020 is "Catch," a feature that is designed to make any object changeable. AutoCAD LT 2019 (not free) AutoCAD LT is offered as a subscription-based
