GEAR DVD/CD Professional Edition Requirements: Windows® 7 or above GEAR DVD/CD Professional Edition Screenshots: Google Chrome and Apple Safari browsers are not supported! DVD hardware sold separately. This program is compatible with all CD and DVD drives on the market today. It's a good by anjou aus 18.04.2019 I have used this product for a long time to burn discs and downloaded. I love how the audio can be changed, cleaned up, cut and spliced. Formatting CD/DVD always has been a chore and this program does it very efficiently. its a super add on by farro h 21.04.2019 be really excited about the update. this is a super add on AGREEABLE TO USE by Kihi 24.04.2019 It's a little unintuitive - I find I often accidentally select incorrect drive if I don't think about my choice. However, within a few hours of tinkering with features, I've got the OS and my drives in order. I like the ability to make a playlist for many files at once.
