### **What's New In Greek Gods Trivia?**

There's probably no mythology more abundant than the greek one, with dozens of famous gods, each with their individual powers, traits, and stories. Those passionate about the subject learn from all sorts of media, be it books, movies and the internet, and an app like Greek Gods Trivia is there to test your knowledge. A lightweight application The app cannot be described in any other way than "lightweight" since there are only three buttons present in the whole main menu, two of which are purely informative. If you're first starting out using the app then you might want to first take a look at the "Learn More" submenu. There you are presented with a detailed guide to how exactly you should be using the app, with help coming in the form of both text and images. There you find out that basically, the whole trivia is a race against time where you have to give the name of the appropriate god depending on what question you are asked. Playing the trivia itself Given that everything is a race against time, the trivia does provide you with some help so that the difficulty level isn't too high. This help comes in the form of the first letter to your answer being already given. This is probably because it is hard to remember so many names, especially when some of them can be so tongue-twisting. Every time you answer correctly, you are awarded ten points, and every time you get it wrong you are subtracted five. Your final score is decided at the end of the 90 seconds you are given. All high scores are saved and can be shared so that you can boast how much your knowledge has improved. A great app for all
