January 16, 2008 - C is the best built-in combat system. D is the best graphics. Artie's ventures in the RPG Maker world = failure. (probably the only coverage of .NET in this book) We often talk about "NET being the next big innovation" in the development industry. ki software. But we don't always understand what that means. Will Microsoft, Google and others eventually try to move away from C and C# and start writing .NET code and then do the same for Java? Is there any chance that the world of Java and C++ will be destroyed? Or is there another way? .NET is another big name in a long list of names.
