### **What's New in the?**

LiteCam HD is the only all-in-one video capture and live streaming application designed and built for Android. It's the ultimate all-in-one video recorder that enables you to shoot, edit and stream video on the go at high resolution. LiteCam HD will record unlimited videos in high resolution (1080p / 720p / 1080i / 720i / 480p) and popular

---

formats (MOV, MP4, AVI, 3GP, FLV, MPEG, JPG, MP3 and more). And you can perform many other awesome editing on videos recorded, such as trim, crop, merge, mute, slow motion, speed, etc. Built-in live streaming/casting allows your friends and family to watch and chat with you in real-time, with no complicated setting needed. And when you pause live streaming, you can automatically save the live stream as a.avi or.mp4. Record video and listen to your audio as your need. We have included a built-in microphone to record sound, so you can use external mic while shooting or recording sound. And you can control the camera's audio and video recording via the on-screen buttons. With this app, you can use the front or back camera for shooting and stream video. Also you can configure options of the camera's focus for shooting. You can save the recorded videos locally or on the cloud, and then access them via cloud sharing to download. You can also use other applications to access the camera, such as Hulu and Netflix applications. You can launch the camera to record your life. We recommend you to connect the phone with WiFi and then access the camera via WiFi. If the camera is connected with the computer, it can save the video and audio files on the computer.

Notes: 1. LiteCam HD is an auto app that requires a rooted phone. So it does not work on normal phones. 2. The camera won't work when no internet connection is available. 3. When connected to your computer via PC's Ethernet port, please note that we cannot guarantee that the camera will work. Permissions: Like other apps, LiteCam HD has the permission to access your location so that we can detect where the camera is and how to focus. LiteCam HD has the permission to access storage so that it can save recordings. LiteCam HD has the permission to access accounts on your phone so that it can upload, download, and delete.

---
